

**Security Camera Installation
RFP NO. 15-011**

Submitted to the City website February 10, 2015

1. Does city prefer fixed or PTZ cameras on bike trail? PTZ
2. Would you like all poles to be "behind the fence" whether chain link or block wall? Yes
3. Would you like all poles at golf course area to have mast to cover overhang? Yes
4. Would you like all poles behind the block wall to require masts? No
5. Would you like to try and fasten cameras to block wall or would you prefer new poles?
Fasten to block wall
6. For the cameras to be mounted along the block wall, can we run conduit along the inside of the wall to save costs or does it need to run underground which would require tearing up the asphalt? Run Conduit along wall
7. Are there any restriction to work hours or noise restrictions on the Golf Course? Normal work hours applicable to Costa Mesa Municipal code
8. Can vendor bring small bobcat onto golf course to trench conduit run along fence line? Yes
9. Do we need to install protective bollards around any new poles to protect from maintenance vehicle damage? No
10. Are you okay with using standard square steel painted 16' poles? Yes
11. Do you expect vendor to perform any landscape repairs such as replacing sod on golf course or will that be performed by city? All dirt removed should be replaced by vendor
12. Can we utilize the (2) 480/277v services located by the golf course fence line for power? If so, is there any available 120v power at these locations? Yes, unsure of 120 volt power.
13. Does city have diagrams or documentation of electrical services along bike trail? No
14. Will vendor need to pull city permits for work to be performed on the golf course/bike trail? Yes
15. Will vendor need to pull city permits for work to be performed at other locations? Yes
