## COMPLIANCE REPORTING

The City holds two Lehman Brothers Medium-Term Corporate Notes in its investment portfolio. The total amount invested in these two securities stated at cost is \$5,049,700. Lehman Brothers filed for bankruptcy protection status on September 15, 2008 and the debt rating fell to B3- on that date. These securities had been rated A2 up until the bankruptcy filing. The market value loss of \$4,107,075 for the securities was recorded on the City's general ledger in September 2008, and is updated annually. The current estimates for recoveries through the bankruptcy proceedings are unknown.

In April 2011, the City joined the Ad Hoc Group of Lehman Brothers Creditors to help maximize the recovery through bankruptcy proceedings, and to protect the City's interest in the Lehman Brother's bankruptcy. The Ad Hoc Group filed a "Creditor's Plan" with the U.S. Bankruptcy Court in Manhattan which would provide a better recovery to creditors of the original Lehman parent company while offering a smaller payout to some creditors of Lehman subsidiaries. The Lehman Brothers Holding Inc. "Debtor Plan" proposed increasing payments to the holding company's senior unsecured creditors, which includes the bondholders, to 21.4 percent of their claims from 14.7 percent. However, the "Creditor's Plan" would pay out about 24.5 cents on the dollar, against 21.4 cents in the Lehman plan. A hearing to authorize submitting the plan to creditors for a vote is set for August 30, court records show.

The investment portfolio is in compliance with the City's adopted investment policy and applicable state laws in all other respects during, and as of, the end of the reporting period.

General Fund Cash Flow Projection**

Due to the severe recession over the last few years, the City’s revenue sources significantly declined forcing the City to take necessary actions to reduce expenditures. Unfortunately, while working to reduce expenditures, the City used approximately \$32 million General Fund fund balance or reserves. This use of fund balance reduced the General Fund annual cash balance.

City Council has expressed a desire to determine the monthly cash flow for the General Fund in an effort to project the future monthly cash balance. Given the City’s historical healthy cash position, it had not been necessary to project monthly cash balance for the General Fund. Therefore, a cash flow model was developed to better analyze the normal monthly activity and the changing trends in both revenue and expenditures.

The General Fund revenues and expenditures fluctuate on a monthly basis, affecting cash. In developing the cash flow model, a 5 year historical data was used for: individual revenue accounts and monthly cash activity. The combination of the two appears to be the best way to accurately project the ending monthly cash balance. However, there remains the possibility of aberrations when actual cash activity is posted and reconciled.

The following is a projection of the General Fund ending cash balances and monthly cash flow activity:

As it relates to updating projected cash balance amounts, staff believes this schedule may be used two ways: (1) update future cash projections on a limited basis to determine the performance of staff to project future cash balances, or (2) update future cash projections on a monthly basis to more accurately determine future cash balances. Staff has left the original estimate amounts to provide performance feedback for City Council and the public. Staff is available to update projected cash balances on a monthly basis to more accurately project future cash balance, if requested.

The August 2011 General Fund cash balance of \$23.3 million is different than the amount originally projected by approximately \$1.7 million (the increase in cash from July 2011 was also \$1.7 million). Staff's analysis concludes that cash receipts for August were approximately \$500,000 more than originally anticipated. This is due to Sales Tax receipts and Transient Occupancy Tax being higher than projected. These revenue sources were also slightly higher in previous months as well, as evidenced by the overall increase in cash, when staff was originally projecting a decrease.

Also, total payments made to vendors were approximately \$200,000 less than originally anticipated. Unfortunately, payments to vendors are difficult to estimate months in advance, so in a given month the deviations can affect the performance of the projections. All payroll charges were consistent with original projections.
