TO: HONORABLE CITY COUNCIL

FROM: COLLEEN O'DONOGHUE, ASSISTANT FINANCE DIRECTOR

COPY TO: CHIEF EXECUTIVE OFFICER

INVESTMENT OVERSIGHT COMMITTEE

REVENUE SUPERVISOR

DATE: JULY 21, 2011

SUBJECT: TREASURER'S REPORT FOR THE MONTH OF JUNE, 2011

Attached is the Treasurer's Report for the month of June 2011. This performance report lists the various types of securities, institutions the securities were purchased from, maturity dates and interest rates for all securities held in the City's investment portfolio as of the end of the reporting period. All of the City's investments as of June 30, 2011, are in compliance with the Investment Policy and the California Government Code except as otherwise noted or disclosed herein. All market values provided in this report were obtained from The Bank of New York Mellon, except for the Local Agency Investment Fund (LAIF). Market values for LAIF were provided by the State Treasurer's Office. The market value shown for the City's LAIF investment represents the City's contractual rights to its LAIF account and does not represent the value of the underlying portfolio securities. As of June 30, 2011, the City has adequate cash reserves necessary to meet its obligations for the next six months.

The weighted average stated rate of return (current yield) for the City's investment portfolio as of June 30, 2011, was 1.712%. The yield to maturity of the portfolio was 1.649%. The current yield of the City's portfolio was 122 basis points (1.224%) above the current yield of the State of California's Local Agency Investment Fund (LAIF) of .488% for the month ended June 30, 2011. The weighted average number of days to maturity for the total portfolio was 317 days (.868 years). The weighted average number of days to maturity for the total portfolio less pools was 759 days (2.079 years). The average duration for the underlying securities within LAIF as of June 30 was 237 days (0.649 years).

The following securities were purchased during the month of June, 2011:

Type of Investment	Purchase Date	<u>Cost</u>	<u>Coupon</u> <u>Interest Rate</u>	Yield to Maturity	Yield to Call	Maturity Date
FFCB	06/09/2011	2,000,000.00	.75%	.75%	.75%	09/09/2013

FHLB	04/29/2011	620,689.66	1.600%	1.598%	1.598%	10/06/2014
FHLB	04/29/2011	2,000,000.00	1.650%	1.640%	1.640%	12/22/2014

There were no securities sold during the month of June, 2011.

There were no securities matured during the month of June, 2011.

COMPLIANCE REPORTING

The City holds two Lehman Brothers Medium-Term Corporate Notes in its investment portfolio. The total amount invested in these two securities stated at cost is \$5,049,700. Lehman Brothers filed for bankruptcy protection status on September 15, 2008 and the debt rating fell to B3- on that date. These securities had been rated A2 up until the bankruptcy filing. The market value loss of \$4,107,075 for the securities was recorded on the City's general ledger in September 2008, and is updated annually. The current estimates for recoveries through the bankruptcy proceedings are unknown.

In April 2011, the City joined the Ad Hoc Group of Lehman Brothers Creditors to help maximize the recovery through bankruptcy proceedings, and to protect the City's interest in the Lehman Brother's bankruptcy. The Ad Hoc Group filed a "Creditor's Plan" with the U.S. Bankruptcy Court in Manhattan which would provide a better recovery to creditors of the original Lehman parent company while offering a smaller payout to some creditors of Lehman subsidiaries. The Lehman Brothers Holding Inc. "Debtor Plan" proposed increasing payments to the holding company's senior unsecured creditors, which includes the bondholders, to 21.4 percent of their claims from 14.7 percent. However, the "Creditor's Plan" would pay out about 24.5 cents on the dollar, against 21.4 cents in the Lehman plan. A hearing to review issues related to Lehman's plan is set for July 20, and a hearing to authorize submitting the plan to creditors for a vote is set for August 30, court records show.

The investment portfolio is in compliance with the City's adopted investment policy and applicable state laws in all other respects during, and as of, the end of the reporting period.

City of Costa Mesa General Fund Cash Flow Projection

Due to the severe recession over the last few years, the City's revenue sources significantly declined forcing the City to take necessary actions to reduce expenditures. Unfortunately, while working to reduce expenditures, the City used approximately \$32 million General Fund fund balance or reserves. This use of fund balance reduced the General Fund annual cash balance.

City Council has expressed a desire to determine the monthly cash flow for the General Fund in an effort to project the future monthly cash balance. Given the City's historical healthy cash position, it had not been necessary to project monthly cash balance for the General Fund. Therefore, a cash flow model was developed to better analyze the normal monthly activity and the changing trends in both revenue and expenditures.

The General Fund revenues and expenditures fluctuate on a monthly basis, affecting cash. In developing the cash flow model, staff used 5 years historical data for: individual revenue accounts and monthly cash activity. Staff believes the combination of the two appears to be the best way to accurately project the ending monthly cash balance. However, there remains the possibility of aberrations when actual cash activity is posted and reconciled.

The following is a projection of the General Fund ending cash balances and monthly cash flow activity as presented at the July 12 City Council Study Session:

	Ending	Monthly Cash
	Cash Balance	Flow Activity
May 2011	\$ 29.2 million	\$ 7.9 million
June 2011 (Proj)	27.2 million	(2.0 million)
July 2011 (Proj)	23.7 million	(3.5 million)
August 2011 (Proj)	21.6 million	(2.1 million)
September 2011 (Proj)	14.2 million	(7.4 million)
October 2011 (Proj)	11.3 million	(2.9 million)
November 2011 (Proj)	9.6 million	(1.7 million)
December 2011 (Proj)	15.8 million	6.2 million

As reported in Treasurer's Report, the June 2011 General Fund cash balance of \$23.6 million is different than the amount projected above. The main reason for the difference is the accrual of payroll during the end of the fiscal year. This was the first payroll paid in July, however the payroll activity/dates, were in June. Staff had included this activity in July instead of June; therefore staff anticipates the activity in July to be lower than originally anticipated.

During the fiscal year end close and in preparation of the Comprehensive Annual Financial Report (CAFR), the June 2011 cash balance may change. As such, staff will continue to review the anticipated ending cash balance to determine if changes to future cash projections are necessary.
