

CITY COUNCIL STUDY SESSION REPORT

MEETING DATE: February 12, 2013

ITEM NUMBER: 1

SUBJECT:

FISCAL YEAR 2012-2013 MID-YEAR BUDGET REPORT

DATE:

FEBRUARY 6, 2013

FROM:

FINANCE DEPARTMENT/FINANCIAL PLANNING

PRESENTATION BY:

BOBBY YOUNG, FINANCE & I.T. DIRECTOR

FOR FURTHER INFORMATION CONTACT:

BOBBY YOUNG, FINANCE & I.T. DIRECTOR

(714) 754-5243

RECOMMENDED ACTION:

1. Receive and file the Fiscal Year 2012-2013 (FY 12-13) Mid-Year Budget Report.

2. Provide information to staff regarding Council's expectations for the remaining year's budget.

BACKGROUND:

The focus of the mid-year budget review presentation is primarily the City's General Operating Fund revenues and expenditures. The vast majority (over 81%) of the City's activities are accounted for within this fund. Other special revenue fund budgets, such as the Gas Tax, Community Development Block Grant (CDBG) or HOME Funds, do not usually require adjustments at mid-year due to the specific nature of the resource allocations and program requirements. When revenues for these special revenue funds are not fully expended during the year, balances are carried forward for re-appropriation in the subsequent years' budget process. Adjustments to other funds are submitted to Council on as needed basis periodically throughout the year.

The budget is the City's spending plan. The City Council adopted the FY 12-13 budget on June 19, 2012. At that time, the City Council adopted a balanced General Fund budget with a \$55,225 surplus, as seen on Attachment #1.

ANALYSIS:

General Fund Revenues

Sales Tax: The City consults with Hinderliter de Llamas (HdL) for in depth sales tax analysis. Each quarter City staff meets with a representative from HdL to discuss sales tax collection and comparability with: the previous year, and other local cities, the county and the state.

Analysis of the first six months of sales tax receipts shows an increase of 10.26% compared to first six months of the prior fiscal year (11-12). The City has now seen three years of positive revenue when compared to previous year's amounts. It is a continued good sign that sales tax revenue has not only stabilized but is continuing to increase at a modest pace.

The largest increases continue to be in the general consumer goods and auto and transportation categories. These are the two categories that decreased the sharpest during the recession. The City continues to benefits from the sales tax revenue generated by stores at South Coast Plaza and those stores are a major sector of the general consumer good category. As for auto and transportation, whereas the used auto sector led the way last year, this year it is both the new and used car sales that continue to increase. This is consistent with statewide data provided by HdL.

Data shows that the activity during the first six months exceeds the adopted budget by about \$1 million. Staff has considered all information, including the potential volatility of sales tax revenue, and is comfortable recommending an increase to the Sales Tax revenue estimate in the amount of \$700,000. Therefore the recommended adjustment is conservatively not projecting any increases over the current budget for the second half of the year.

Transient Occupancy Tax (TOT): Analysis of the first six months of transient occupancy tax collections shows an increase of 9.40% compared to first six months of the prior fiscal year (11-12). Similar to Sales Tax, TOT revenue has seen 3 years of positive activity. Staff originally estimated an increase of 4.5% compared to FY 11-12. Given the revenues to date and projecting the remaining year activity equal to the original budget, the year end amount should exceed the original adopted budget. Therefore, staff will be recommending an increase in the TOT estimated budgeted revenues in an amount of \$200,000.

Property Tax – All Accounts: Analysis of the first semi annual receipt from the County Treasurer's Office for property tax revenue shows only a slight increase of 0.13% above last year. Staff had originally estimated a conservative 2.51% increase for all property tax revenue accounts, so the current year activity appears consistent with the adopted budget amount and staff will only be recommending an increase of \$60,000 to the Supplemental Property Tax revenue account which has already exceeded the original budget amount.

Other Revenue Account Adjustments: Many other revenue accounts are recommended for increases and decreases alike. Staff will be able to address each on an individual account basis during the presentation. A listing of all revenue accounts and recommended adjustments can be seen on Attachment #2.

General Fund Expenditures

Staff's analysis of the General Fund Expenditure accounts has concluded that it is in good standing half way through the year. With only a minor amount of carryover appropriations from last year and new appropriations (mostly for additional staffing in the Development Services Department) the budget appears on track with original estimates. While the City continues to have many vacant positions, the adopted budget took some of the attrition savings into account. As seen at the bottom of Attachment #3, overall Salaries and Benefit accounts are under the expected 53% remaining, while

Maintenance and Operation accounts, due to encumbrances, are slightly under 50% remaining. Fixed Asset line items currently exceed the original adopted budget due to Information Technology (I.T.) improvements, which staff will be presenting at a future City Council meeting.

Therefore at this time staff does not believe it will be necessary to recommend an increase of appropriations for the remainder of the fiscal year. However, should the City Council desire a greater budget amount for particular unbudgeted items or budget contingencies, staff should be requested to take those into consideration when approving the mid-year budget adjustments at a future City Council meeting.

Staff is also planning to include a reconciliation of the Contingency budget of \$1 million as part of the presentation at the Study Session meeting.

CONCLUSION:

The FY 12-13 General Fund budget was adopted with \$55,225 surplus. Based on analysis, staff will be recommending some increases in revenues estimates during the presentation. However, staff does not believe it is necessary to increase General Fund appropriations at this time. Should City Council take action on staff's recommendations at a future City Council meeting, staff is currently projecting a year end surplus of \$201,360.
